

Dear Mr. Metzner,

A lot of my classmates just don't appreciate soldiers like yourself. Most of them just use this country and don't even think about giving anything back. I would like to tell you that I appreciate the things you did for your country. If another war to break out, myself would be the first in line to register to fight for my country and even die for the beloved country of the United States of America.

Thank you for sharing your
experiences.

Sincerely, 
Ben Palone
