

Dear Ms. Metzner

1-19-2000

I am writing this letter to thank you for sharing your time with us and talking to us all about your experience.

I can truly say that you are idolized by many of your peers and I am one of them.

My Grandpa fought in WW II and received a purple heart and I really have a lot of respect for him. But what you did for this country is very far from what I could ever do.

I don't think that if I had the chance I would keep on going back to fight because I would want to be with my family and friends. But you showed that you were a true patriot and you fought it out so all I can say is thanks so much.

Sincerely,

Tommy Taylor
