

Dear Mr. Metzner,

I would like to thank you for coming in and sharing your time with our class to tell us about your experience in Vietnam. It is great to have people around like you who can look back on those days in the 60's in which you then can retell the lost or unknown stories of Vietnam. I love to hear stories that came right from the heart of someone who really was there and knows what happened. I look forward to reading your book. Thank you once again.

Purity Riley
