Dear Mr. Metzner,

Thank you so much for coming to our class room and speaking to us about what you experienced in the Vietnam war. It is so wonderful that we are lucky enough to have someone like you share with us the amazing things you went through.

I believe it is very important that we are exposed to this. We need speakers (like you) who have been through this, to share with us. I am so interested in knowing more about history, and I am also involved in journalism, because I feel words are very strong. Also, I seem to have a hard time with reading a ~~to~~ U.S. history book, and being told 'that's the way it all happened.' I believe in researching and studying these things.

Thank you so much for your time. I will look for your books.

Love & inspiration,
★ Sarah ★
