

Mr. Metzner,

January 18, 200

I really enjoyed your presentation. It helps to really understand the Vietnam War. I feel that hearing a story from someone who was really there is so much better. It creates a mental picture in your head. I would like to thank you for risking your life for not only your country but for each individual living here in total freedom and harmony! What you went through must have been amazing and I hope you keep telling your story! Congratulations on the books!!!

Thank You,

Barbara Ann Fletcher
