August 9, 1981

Dear Oddie:

Many thanks for your note of August 3rd and the article by John Colvin in the Washington Quarterly. I have seen only excerpts from it and am glad to have the whole article which I found fascinating reading. I wish it could have wide circulation. The conclusions on the last two pages do indeed please me mightily. How right the author is!

We are in Vermont and will perhaps be here until late October with occasional short trips to Washington. With Steve Young's assistance I will continue to work on the book, but it is taking longer than I expected for we continue to turn up new information and government clearances are slow in coming. I have been waiting a long time for the N. S. C. to give me clearance on the notes I made on my correspondence with Nixon.

Carol joins me in sending our best. We hope we can get together when we return in the fall.

Sincerely,

Ellsworth Bunker

Mr. Ogden Williams
