Dear Bui Dien:

I am writing to commend to your attention Professor John Lydgate of Georgetown University, who has applied to become a member of a group of professors and students invited to visit Viet-Nam by the Vietnamese Government. Professor Lydgate hopes he can be included in the group. Based on my conversations with him, I think he is just the type of man who would appreciate and profit from the Vietnamese Government's generous offer.

I would therefore recommend, subject to your approval and the availability of a place in the group, that Professor Lydgate definitely be included.

With best wishes,

Sincerely,
