Dear Len:

I asked for and received the attached note from Stephen Fisher, one of our students who will be arriving in Viet-Nam in July. He was raised on a farm and has a thorough background in agriculture, and he also served in forestry work in the Peace Corps in Sabah. The attached letter describes details. He is hopeful that he can be assigned to agriculture-related work in Viet-Nam. He seems to be an excellent man, and perhaps he could find his niche in NLD, village development, or the like. I told him I would write you in the hope that you may be able to set up some interviews for him when he arrives.

I guess you are becoming a short-termmer. Please let me know your plans. Did you have a chance to talk to Miss Maughan and Miss Crane when they arrived?

Best regards to all.

Sincerely,

Ogden Williams
Coordinator
Viet-Nam Training Center
