Dear Carl:

The other day Ray Miller said that you had mentioned to him some months ago the possibility of selling some or all of your land which adjoins ~~my~~ on Big Ridge. Should this be the case, I would much appreciate your giving me a chance to buy some or all of the property since it would protect the property I already own. Also, we then would not have to find a surveyor to figure out the exact line between our two properties.

Should you be interested in my making you a proposition at any time, please let me know.

I take it you will contact me sometime prior to next year's deer season, if you still wish to hunt on my other property adjoining Don Biller.

With best wishes for 1971.

Sincerely,

Ogden Williams
