Dear Byron:

Jess Snyder will be visiting you shortly, and I understand has already written to you.

In any case, I would much appreciate hearing from you as to any progress in putting the programs on video tape, as we discussed when I was in Saigon. This could be a really creative thing. For example, the Program Director at the Saigon level could lay out the main outlines, with field personnel filling in all kinds of practical details. There is no limit to how much could be imparted in this way except the willingness of personnel involved to tell it like it is for the tape. Any indications from you how things are going would be appreciated.

With best wishes.

Sincerely,

Ogden Williams
