Mr. Andrew M. Williams
Mileta Farm
Burton, Washington

Dear Mike:

I enclose a brochure recently received from The Wilderness Society which is signed by executives of most of the other major conservation organizations. I also enclose a letter to the Department of the Interior which I asked be made part of the record. If you are interested in this matter and have views on it, you may wish to express them as the brochure indicates.

Many thanks for your hospitality in Seattle. The trip was rather a hard one this time. Last weekend I made great use of your Christmas present in the cold of West Virginia.

I tried to contact Andrew up in Alaska on the way through Anchorage but it was after hours and I was unable to do so.

Best regards to Edith.

As ever,

Ogden Williams
