

July 28

Dear Ogden -

"Front-Lines" has informed me
of your new appointment. Congratulations,
but you have a tough one!
However, feel sure you can lessen
the problem if anyone can.

Peggy and I are enjoying
life and "retirement" immensely in this
delightful place - better in the long
run than Barbados. She is
working up a local radio program
(with which she has had experience),
and I have put up a small
studio in order to carry on

painting activities. So we are not-
idle.

Should you have time en-
route to the Far East - to stop
off here, please give me a call.

Sincerely,

Quincy
