28 March 1983.

Dear Mr. Williams:

If that really is what Tsongas said, that "political questions cannot be solved by military force," I would comment that "simplistic" is too kind an adjective to be applicable here. As you correctly point out, "political" questions historically have been solved by military force. I continue to be dismayed and discouraged by the prevailing view in Congress toward El Salvador, but I fear the situation is beyond salvaging now.

Sincerely,

James J. Kilpatrick.
