# RADIO SERVICES - SHIPS AT SEA

Modern ship to shore radio bridges the distance between you and your family, friends or business associates, wherever they may be, and enables you to keep in touch with home and office.

The vessel's Radio Officer stands ready to help you choose a class of service to fit your personal or business needs. He will be pleased to give you full details of the various radiotelegraph services available from shipboard.

**FULL RATE RADIOGRAM (P):** — The basic, fast service in the ship to shore service.

**NIGHT RADIO TELEGRAM (NRT):** — A reduced rate service, in which messages are sent by radio from the ship during the night, and are delivered by telegraph to any point in the United States the following morning.

**FLOWER FRUIT OR CANDY MESSAGES (FLO):** — Flowers, Fruit and Candy for any occasion may be ordered by radio. Such orders are sent to the dealer nearest destination who delivers flowers, fruit or candy and a message of not over fifteen (15) words to any point in the United States at a flat rate per order.

**SHIP LETTER TELEGRAM (SLT):** — An exceptionally low rate service, available to the UNITED STATES and to many other countries, in which messages are transmitted from the ship by radio, and are mailed from a land station in the country of destination.
