February 23, 1967

To: ALL Radio Officers

Our associated vendors SCHRAFFT'S and LOFTS have announced a revision and repricing of the Standard Line candies available through the RADMARGIFT service throughout the year.

In anticipation of the upcoming gift occasions of Easter (March 26) and Mother's Day (May 14) we are forwarding enclosed new Standard Line lists (white sheets) which should be used by your radio station as soon as received on board. SCHRAFFT'S has also supplied their illustrated folder (pink sheet) depicting all regular candy selections which may be ordered at all times.

Please note that both new listings and the SCHRAFFT display sheet are current gift material and therefore should be retained and used on board until further notice. The updated candy lists are being incorporated in our new edition of the RCA MARINE INFORMATION BOOK now being prepared and which will be mailed shortly to all vessels on the RCA Responsibility List and to other ships working through our coastal stations.

SCHRAFFT'S is not offering any "specials" for Easter or Mother's Day at this time and we can expect that this practice will be discontinued permanently by both candy companies in the future. It is felt that the Standard Line candies afford a reasonable choice of items to users of our gift service, particularly since each vendor packages his product in a manner appropriate for seasonal gift giving.

LOFTS has designated a selection of special items for this Spring only (yellow sheets) and these gifts may be ordered through RADMARGIFT if desired. Please destroy this LOFT material after it has served its purpose no later than May 14.

We appreciate the fact that many vessels will not receive information on revised candy prices until after Easter, due to delayed mail delivery especially in the Far East area. Any gifts already processed at old prices need not be recomputed as variances will be absorbed during this transition period.

OPERATIONS

Station WMH, Baltimore, is now using the frequency 6519.5 kcs in lieu of 6446 during night hours. Also, the station will carry coastal and bay forecasts at 1600 GMT instead of at 1530 GMT. Other weather broadcast hours remain unchanged.

I.T.U. publications required on board are available to RCA-licensed vessels at any RCA Service Depot in the continental United States. If not already in your radio station library, the following current copies should be obtained on your next requisition:

- List of Coast Stations, 2nd Ed. Dec. 1963
- List of Ship Stations, 6th Ed. Dec. 1965
- Alphabetical List of Call Signs 3rd Ed. March 1966
- List of Radiodetermination and
Special Service Stations 3rd Ed. March 1966
