MASTER CROSS REFERENCE LIST

U.S. NAVY TAILORED

REFERENCE NUMBER TO FEDERAL STOCK NUMBER (PART 1)

INTRODUCTION

1. GENERAL INFORMATION:

This introduction provides guidelines for interpreting the information contained in this catalog.

2. AUTHORITY:

This document is published by the Defense Logistics Services Center in accordance with provisions set forth in Chapter 7 of the Federal Manual for Supply Cataloging.

3. PURPOSE:

This publication is designed to provide a means for determining the Federal Stock Number(s) applicable to a particular reference number in the Federal Catalog System.

4. RESPONSIBILITY:

The Commander of the Defense Logistics Services Center is responsible for the compilation and maintenance of this publication.

5. SCOPE:

This catalog provides a link between reference numbers and Federal Stock Numbers and data associated with them in publications.

6. CONTENTS:

a. Data in this publication represents Federal Stock Numbers for which the U.S. Navy is recorded in the Defense Logistics Services Center files as having an interest. The data is arranged in reference number sequence, with its applicable Manufacturer's Code, Reference Number Variation Code and Federal Stock Number shown in adjacent columns.

(1) The reference numbers have been modified in accordance with Chapter 6, Federal Manual for Supply Cataloging, and sequenced alpha-numerically.

(a) Some examples of modified reference numbers are:

<i>Reference Number</i>	<i>Corrected Modification</i>
-15 + 110	M15P110
123 45 B* 6D	12345B6D
1/2 by 1/4C	1-2X1-4C
7-16 BALL GRADE NUMBER 1	7-16BALLGRADE1
1A309 THROUGH 1A312	1A309TO1A312

Blanks and dashes will not appear in the first position of a reference number.

(b) The order of digit precedence in which the numbers are listed is as follows:

Space (blank column)

Dash (-)

Letters "A" through "N"

Letters "P" through "Z"

Numerals "0" through "9"

(The letter "O" is considered a numerical zero)

(2) Reference numbers are sequenced by column position. The first column position is sequenced and then the second, etc., which may result in a number of higher value preceding a lower value (e.g., 19 before 2). Some examples of sequencing are:

AZ100
RA
OXALIC55
19
2
3-99999
32
4 4-5
43-5

(3) It is recommended in looking up a reference number that the various methods of representing this number be recognized. If a number cannot be found in the form represented in your Cosal, Technical Manual, IPB, etc., try various arrangements of the part number before assuming its exclusion.

Example: 13 7BCA1 23B
13-7BCA1-23B
13-7BCA123B
137BCA1-23B
137BCA123B

(4) When a reference number exceeds 32 positions, a dash appears in the 32nd position. Because of space limitations a maximum of 31 positions of an extra long reference number is printed.

b. The data reflected in this document is defined as follows:

(1) Reference Number—A number, other than an activity stock number, used to identify an item of production or, either by itself or in conjunction with other Reference Numbers, to identify an item of supply.

(a) Reference numbers included are manufacturers' part, drawing, model, type, source controlling numbers, specification controlling numbers and the manufacturer's trade names when the manufacturer identifies the item by trade name only; specification or standard numbers; and specification or standard part, drawing, or type numbers.

(b) Reference numbers excluded are those with a Reference Number Category Code (RNCC) of "6" or "8", i.e., NATO Stock Numbers, Military Standard Supply (MSS) Numbers, Production Equipment Codes (PEC), DoD AMMO Codes and NATO reproduced item reference numbers.

(c) Federal Stock Numbers which do not have Reference Numbers (NOREFs) will not be listed in this document.

(2) Federal Supply Code for Manufacturers (FSCM)—The applicable manufacturers' assigned five-digit code as listed in the Cataloging Handbook H 4-2, "Federal Supply Code for Manufacturers" (Code to Name).

(3) Reference Number Variation Code (RNVC)—This Code indicates whether the Reference Number is item identifying or requires additional data to correctly identify the item of supply, or is associated with a source or specification control drawing:

i.e., Code 1—Non-identifying

Code 2—Identifying

Code 3—Source or specification control drawing association

(4) Federal Stock Number (FSN)—The FSN for an item of supply is uniformly eleven digits consisting of the applicable four-digit Federal

Supply Class code plus the seven-digit Federal Item Identification Number (FIIN).

7. SECURITY:

This publication does not contain security classified data.

8. FREQUENCY:

The basic document is published annually and supplemented by cumulative Change Bulletins issued on a quarterly basis.

9. INVITATIONS FOR COMMENTS, SUGGESTIONS AND CORRECTIONS:

Comments, suggestions and corrections pertaining to information contained in this publication should be directed to Commander, Defense Logistics Services Center, Attention: DLSC-C, Federal Center, Battle Creek, Michigan 49016.

10. MANUFACTURERS NONPREFERENCE STATEMENT:

Information related in any manner to the product of a commercial manufacturer contained in this publication is included as an aid to the conduct of official business only, and does not indicate any particular endorsement of a commercial product listed in preference to a comparable product which may not be listed.

11. DISTRIBUTION:

Afloat:

Authority for initial ship distribution or increase in the number of copies allocated per vessel is vested in the respective Fleet Commander-in-Chief. Accordingly, requests should not be forwarded to the Fleet Material Support Office unless approved by the Fleet Commander-in-Chief via appropriate channels.

Ashore:

Requests for inclusion on the distribution list or for an increase in the number of copies furnished should be forwarded to the Fleet Material Support Office for approval.

Coast Guard Units:

Requests for inclusion on the distribution list or for an increase in the number of copies furnished should be forwarded to the U.S. Coast Guard Headquarters, 1300 "E" Street, NW., Washington, D.C. 20226 for approval.
