CAPTAIN'S REMARKS ON INSPECTION:

"I am very well pleased with the overall improvement of the Crew's Quarters,- the cleaning and general housekeeping are generally good.

There was only one room that was totally unsatisfactory in every way belonging to the Engine Dept.'s Wipers # 3-170-2-L.

Paint Fire Hydrant valves and clean stems with crocus cloth where indicated.

Require Engine Dept. to follow up on Lint Disposal from the dryers in the Crew Laundry rooms."

W. C. King
- MASTER -
