

INSTRUCTIONS

HELMETS — CONSTRUCTION AND ELECTRICAL WORKERS

CROWN STRAPS ADJUSTMENT

Untie the square knot securing the crown adjusting cord. Tighten or loosen the cord, as desired, for proper fitting.

Secure the cord at this position using a square knot.

HEADSIZE (HEADBAND) ADJUSTMENT

TO TIGHTEN — Take-up headsize adjustment strap ① near buckle slide, in direction of arrow ①. Then take-up the slack at position ②, in direction of arrow ①. (Typical two places)

TO LOOSEN — Reverse the above procedure.

CHINSTRAP ADJUSTMENT

TO SHORTEN - Take-up webbing at position ③, in direction of arrow ③. Take-up slack at position ④, in direction of arrow ③. Then take-up the remaining slack at position ⑤, in direction of arrow ③ and position ⑥, in direction of arrow ③.

TO LENGTHEN - Reverse the above procedure.
