FOREWORD

For further information and details on how to order stock items listed in this publication, see the green pages of GSA Stock Catalog, IL/Part I or IL/Part II.

1. General. The National Supplier Change Index (CI), Section 5 of the Guide, provides in a single publication notice of new supply items and changes to GSA Federal Supply Catalog publications.

The CI is a cumulative publication issued each calendar quarter. When the basic issue of a GSA supply publication and the CI have the same effective date, changes will be listed in the basic publication only. This CI includes cumulative changes to: the April 1969 Stock Catalog, IL/Part I, the July 1969 Guide to Sources of Supply and Service, and the October 1969 Stock Catalog, IL/Part II.

For a complete listing by Federal stock number sequence of all stock and nonstock items available from the GSA supply system, ordering offices are referred to the January 1970 Management Data List (ML), Section 6, which lists in a single handy volume essential ordering and supply data for over 100,000 items.

2. Note to DoD Activities. GSA supply catalogs are issued to DoD activities for information purposes only. They do not list all GSA stock items available for issue. DoD activities should refer to their military service Management Data Lists (ML's), other service supply publications or internal issuances before processing requisitions to GSA.

3. Effective Date. All information, ordering data, and changes listed in this publication are effective January 1, 1970, and will continue in effect until further notice.

4. Distribution. Copies of this CI have been mailed to all addressees on the regular Stock Catalog mailing list. Additional copies may be obtained from GSA regional offices.

5. Contents of the National Supplier Change Index, Section 5. Supply information changes appearing in a CI are grouped separately for each of the supply publications in the following sequence:

a. *GSA Stock Catalog, IL/Part I.* Cumulative changes to the April 1969 issue appear in this CI.

b. *GSA Stock Catalog, IL/Part II.* Changes to the October 1969 issue appear in this CI.

c. *GSA Guide to Sources of Supply and Service, Sections 1-4.* Changes to the July 1969 issue appear in this CI.

d. *GSA Management Data List, Section 6.* Changes to the Management Data List appear in the January 1970 issue.

6. Prices. Prices for new items in this publication apply to all agency orders received in GSA regional offices on and after January 1, 1970, and will remain in effect until further notice. Price changes listed in this CI are in effect on the date indicated. Prices shown include charges for normal mode of surface transportation on an f.o.b. destination basis to consignees in the United States (excluding Alaska). Advance notice of price changes will be furnished.

7. Unit of Issue. A standard or basic quantity in which an item of supply is issued or used, which represents the concept of the Federal stock number. It is the accounting unit established by the Managing Activity in association with the unit price and is the minimum ordering quantity to be requisitioned. The unit of issue preceding the price is the minimum ordering quantity, except where otherwise noted.

8. Standard Pack (QUP). The Standard Pack or Quantity Unit Pack (QUP) cited in GSA supply publications is always expressed as a multiple of the Unit of Issue shown in the publication. Item descriptions may cite one or more standard pack (QUP) levels; i.e., unit pack, intermediate pack, and shipping container pack. To reduce packaging and handling cost and expedite shipment, ordering offices should requisition quan-

tities equivalent to the shipping container pack when possible or in one of the other standard pack levels indicated.

9. Regional Area Map. The map on the back cover shows the geographic boundaries of the GSA regions. Ordering offices should submit all requisitions for supplies and services to the GSA region servicing the geographical area of the consignee.

10. Information. For further information, direct your inquiries to the GSA regional office servicing your activity. Orders and requisitions for stock items should be sent to addresses shown on the back cover and should include the routing identifier symbol shown with the address. Inquiries on orders for other than stock items should be directed to the addresses shown on the inside back cover.

GROUP 34

Class 3439

ELECTRODES, WELDING

Solid. 2% thoriated tungsten. Ground finish. 7" long. 10 to package. Rated 150 amp. *Std. pack: 10 and 100.* Int. Fed. Spec. QQ-E-00445.

Supersedes description in April 1969

GSA Stock Catalog, IL/Part I.

3439-655-2089	1/8" dia	PG	\$5.60
---------------	----------	----	--------

GROUP 35

CLASS 3540

NETTING, COTTON

Cotton netting for portable CHL Jettyer refrigerated meat packaging unit. Jetnet mesh sizes given below. 50-yard roll.

3540-119-3654	No. 14	RO	\$11.07
3540-119-3658	No. 20	RO	\$13.53
3540-119-3659	No. 22	RO	\$13.95

PACKAGING UNIT, MEAT, REFRIGERATED

For use with Nos. 18 and 20 size netting. Single sheet, stainless steel loading funnel, mounted on two brackets, at front and rear of funnel and attached to base plate. Funnel entrance is 11" dia., exit is 4 1/4" dia. Funnel is 27" long. *Std. pack: 1.* Pur. Desc. 3540-007-07-2.

3540-119-3652	Size 2	EA	\$56.00
---------------	--------	----	---------

SEALER

Heavy duty triple crimp sealer. For use on 1/2" wide plastic strapping. Plier handles. Perpendicular or end-jaw type. Constructed to prevent cutting the strapping material (fiber glass or polypropylene). For open or closed seals. American Viscose PSS-4 or equal.

Supersedes description in April 1969

GSA Stock Catalog, IL/Part I.

3540-066-4638		EA	\$18.20
---------------	--	----	---------

SEALING IRON, ELECTRIC

Portable, hand rotary sealer with grooved sealing rolls. For sealing barrier material. 2 elements, 150 w. each. Adjustable thermostat. Use only on 110-120 v., 60 cycle a.c., single phase. Pack Rite Machines or equal.

3540-975-4255		EA	\$14.00
---------------	--	----	---------

SEALING MACHINE, HEAT

Band type continuous sealing machine. For supported material. Seals 360 inches per minute. 1/4 hp, 110 v., a.c., 60 cycle, single phase. 225 to 525°F. temperature range, 40 to 80 p.s.i. 1/4" side heat seal. Floor mounted. With cooling unit. Complete with 2 bands, 4 pullers, 1 each control, grease gun, straight edge and wrench. Type II, Spec. MIL-S-00461E.

3540-505-4785		EA	\$1,314.00
---------------	--	----	------------

Rotary type sealer for barrier materials. With heat indicator and thermostatic control. Can be bench mounted or hand held. Sealing speed, 200 linear inches per minute. 1/50 hp., 110 v., a.c., single phase. Temperature range 600° F. 3/4" wide heat seal. 12 1/2 x 5 1/2 x 6 1/2" high.

Supersedes description in April 1969

GSA Stock Catalog, IL/Part I.

3540-819-8837		EA	\$348.00
---------------	--	----	----------

TENSIONER

Heavy duty windlass tool with cutter. Use with 1/4 through 1 1/4" high tensile strength rayon cord strapping. 10" long including 4" hand grip. 8" ball knob handle. American Viscose AVT-2A or equal.

Supersedes description in April 1969

GSA Stock Catalog, IL/Part I.

3540-066-4639		EA	\$33.80
---------------	--	----	---------

CLASS 3590

CLIPPER, HAIR

Electrically operated clipper for human hair. Rotor type motor. Use for flat top, crew cut, and butch haircuts. Clipper includes detachable cutter head, cord, blade guard, and case; clipper blades, size 1 to 000; 2 brushes and clipper oil. 110 v., a.c., 60 cycle, single phase. Table I, Item 8, Spec. MIL-B-1771E.

3590-052-5625		EA	\$15.00
---------------	--	----	---------

PRESS, LAMINATING

Protective covering continuous roll laminator. With cooler. Laminates photographs, identification cards, documents, printed materials between 2 protective plastic sheets. *Std. pack: 1.* Plasticmaster PRL 3 or equal.

3590-087-4412		EA	\$395.00
---------------	--	----	----------

Portable, roller type hot press. Forced air-cooling system. Hand operated with pressure release. Seals 10 x 8" max. size material. 115 v., a.c., 60 cycle, single phase. Single cartridge heating element. 562.75 wattage.

3590-869-4399	24 x 18 x 10"	EA	\$420.00

GROUP 37

CLASS 3750

ARM, CUTTING UNIT

Arm cutting unit bracket. Use on Milbradt 30" wheel mower. Milbradt 890 or equal.

Supersedes description in April 1969

GSA Stock Catalog, IL/Part I.

3750-631-3349		EA	\$3.18
---------------	--	----	--------

BELT, DRIVE

43" "V" section belt. Used on 4 wheel tractors. *Std. pack: 1.* Bready 15-294 or equal.

3750-103-2270		EA	\$6.00
---------------	--	----	--------

BLADE, LAWNMOWER

22" long, 1 1/8" thick. General Appliance B106 or equal.

3750-111-6580		EA	\$5.95
---------------	--	----	--------

Blade, lawnmower, continued on next page.

Classes 3750-4730

BLADE, LAWNMOWER—Continued

Double edge heavy duty blade. $\frac{1}{4}$ x 1 x 5". For models HW-60 and HW-72 flail mowers. *Std. pack: 12 and 72.* Sun-Master 2172 or equal.
3750-115-0409.....EA \$1.04

BLADE, UTILITY

Utility blade for Lilliston Implement mower model 7-six. 14 x $\frac{3}{4}$ ", 45° back radius. Sharpened at 45° for 6" cutting surface, chamfered both sides. Precision balanced. Set of two.

Supersedes description in April 1969 GSA Stock Catalog, IL/Part I.

3750-591-1499.....SE \$7.28

BUSHING, WHEEL

Used in wheel of riding section of sulky style lawnmowers. 2 bushings each wheel fit axle and pneumatic wheel. *Std. pack: 144.* Kut-Kwick 9820 or equal.

3750-018-3075.....EA \$4.00

CLEVIS, LAWNMOWER

Blade attaching for heavy duty 2172 blade. For models HW-60 and HW-72 flail mowers. *Std. pack: 12 and 72.* Sun-Master 2733 or equal.

3750-115-0410.....EA 84¢

CLIP, MOWER KNIFE

Knife clip. For Jari Jr. Model E and Jari Chief Model K mowers. Attached with adjustable screw and set screw. *Std. pack: 48.* Jari 4A or equal.

3750-679-2333.....EA \$1.00

CROSS CENTER, MOWER

Fits HW-60 and HW-72 flail mowers. For No. 1038 hitch model or No. 1037 trailer model drive shaft. Grease fitting attachment. *Std. pack: 12.* Sun-Master 1052 or equal.

3750-115-0412.....EA \$7.88

CUP ASSEMBLY, LAWNMOWER

For 1038 hitch model or 1037 trailer model drive shaft. Also for flail mowers, models HW-60 and HE-72. With bearings and retainer. *Std. pack: 12 and 72.* Sun-Master 1051 or equal.

3750-115-0411.....EA \$2.66

CUTTER, BLADE, LAWNMOWER

West Point Lawn Products 964 or equal.

3750-110-3759.....EA 87¢

CUTTERHALF, UNIVERSAL

For 7-Six Tow Model D rotary cutter. *Std. pack: 12.* Lilliston 01-50-090 or equal.

3750-103-9987.....EA \$20.00

FLAP, LAWNMOWER

Rear flap for Model J mower. *Std. pack: 1.* Kut-Kwick 12-526 or equal.

3750-103-8692.....EA \$2.26

HOUSING, LAWNMOWER

22" housing deck. "C" design. General Appliance D146 or equal.

3750-111-6581.....EA \$25.00

HUB RACE, INNER

For 7-Six Tow Model D rotary cutter. *Std. pack: 12.* Lilliston 01-61-089 or equal.

3750-103-9990.....EA 90¢

MOWER, LAWN, POWER

Medium duty walking type rotary mower. Self-propelled. Flat knife blade rotates in horizontal plane. Single cylinder 4-cycle air-cooled gasoline engine. 25" cutting swath. Adjusts from 1" to 3" cutting height. 4 rubber tired wheels. Type II, Class 1, Style 2, Size B, Int. Fed. Spec. 00-M-00681.

3750-526-4742.....5.5-hp.....EA \$312.00

Heavy duty, self-propelled riding mower. Integral operator's seat. Flat knife blade rotates in a horizontal plane. Multiple speed transmission with reverse. Single cylinder 4-cycle gasoline engine. 38" cutting swath; cutting height adjusts from 1 to 3". Type II, Class 2, Style 2, Int. Fed. Spec. 00-M-00681.

3750-857-2289.....9-hp.....EA \$793.00

MOWER CUTTER

Lift type rotary mower attachment. With 3-point hitch for tractor mounting. Powered by straight drive from tractor. 60" cutting swath, 2 to 12" height. 30 hp. gearbox. Operates at 3 to 8 m.p.h. Caster wheel has 16 x 4.00 semi-pneumatic tire. 12-gage steel deck, side guards and skid shoes. Lilliston 08-11-111-60D or equal.

3750-103-8689.....EA \$273.00

RAKE, LAWN

Garden and lawn hand rake. Straight head. Lightweight metal with level steel head, 30" wide, 6 $\frac{1}{2}$ " long teeth. 60" handle. *Std. pack: 4.* Type III, Class C, Fed. Spec. GGG-R-96.

3750-965-0070.....EA \$4.80

REEL ASSEMBLY

8-blade reel assembly for Toro lawn mowers. Toro 4-2159 or equal.

Supersedes description in April 1969 GSA Stock Catalog, IL/Part I.

3750-770-7234.....EA \$46.57

ROLLER, WEED

Spreads 36" wide liquid path through 18 adjustable drip valves. Pull over level or sloping ground to disperse water, liquid weed killers, insecticides, herbicides, or fungicides. Liquid is gravity fed from a 15 $\frac{1}{2}$ -gal. tank to valves tuned to $\frac{1}{4}$ -2 $\frac{1}{4}$ lbs. water pressure. 5-10 p.s.i. roller pressure. 39 x 10 $\frac{1}{4}$ " tank, 49 $\frac{1}{2}$ x 43 $\frac{1}{2}$ x 30" overall. Lakes Supply 101G or equal.

Supersedes description in April 1969 GSA Stock Catalog, IL/Part I.

3750-931-8959.....EA \$103.00

SHEARS, PRUNING, HAND

Two-hand lopping shears. 24" long. Cuts branches 1 $\frac{1}{4}$ " dia. Long metal ferruled wood handles. Convex blade and concave hook cutting head. *Std. pack: 6 and 24.* Design 1, Style A, Fed. Spec. GGG-S-285.

3750-641-1197.....EA \$2.20

SKID, LAWNMOWER

High cut skid. Used on Jacobsen's "Turf King" power mower. Jacobsen's 203394 or equal.

3750-111-2591.....EA \$3.25

SPRINKLER, LAWN

Fixed, commercial brass lawn sprinkler. Subsurface connection; fixed mounting. $\frac{1}{2}$ " NPT/female thread size. Adjustable from full spray to complete shut off. *Std. pack: 12.*

Fixed quarter circle slotted head design. 12 ft. maximum strip spray area. L. R. Nelson or equal.

3750-288-8543.....EA 30¢

Fixed half circle slotted head design. 12 ft. maximum strip spray area. Rain Bird Sprinkler or equal.

3750-288-8542.....EA 53¢

Fixed full circle design. 12 ft. dia. maximum spray area. Rain Bird Sprinkler or equal.

3750-288-8541.....EA 52¢

Portable steel sprinkler with brass connections. Revolving arm. Base mounted. Painted protective coating. $\frac{3}{4}$ " male sprinkler connection; and $\frac{1}{4}$ " hose connection with 11 $\frac{1}{2}$ thread. 50 ft. maximum spray area. *Std. pack: 12.* Rain Bird Sprinkler or equal.

3750-843-8580.....EA \$1.30

THROTTLE CONTROL

Single throttle control. Use on mowers with T or bullhorn upper handles. *Std. pack: 48.* General Appliance I303 or equal.

Plain coupling. Sleeve joins 2 lengths of uncoiled fiber pipe, or joins spigot to uncoiled fiber or soil pipe. Used in non-pressure sewers and drain systems . . . underground pipes, downspouts and salt water disposal. Fed. Spec. SS-P-345.
5630-254-9145.....6" EA \$1.32

LATERAL, BITUMINIZED FIBER PIPE

Bituminized-fiber lateral used in nonpressure sewer and drain systems. Wye has 2 taperweld female joints, and 1 taperweld male joint. Fed. Spec. SS-P-345, or SS-P-356.

5630-255-7997.....4" Wye EA \$3.40

Same as above. Reinforced with interwoven fibrous structure.
5630-880-5074.....6" Wye EA \$5.20

PIPE, BITUMINIZED FIBER

4" dia., 8 foot lengths. Strongly interwoven fibers impregnated with a chemical-resistant bituminous compound. Nonperforated. Fed. Spec. SS-P-356, or SS-P-345.
5630-962-7382.....FT 28¢

REDUCER, BITUMINIZED FIBER PIPE

6 x 4" pipe size. Female taper joints. Reinforced with interwoven fibrous structure. Fed. Spec. SS-P-356, or SS-P-345.
5630-880-5075.....EA \$5.20

CLASS 5640**CEMENT, INSULATION, HIGH TEMPERATURE**

Hydraulic setting, one coat application cement. For insulating pipe fittings and as finish over other insulation. No drying shrinkage—application in one layer to desired thickness. Hardens within few hrs. 100 lbs. cover 36 sq. ft. Johns-Manville 30 or equal.

5640-112-0210.....50-lb. BG \$12.50

INSULATION, PIPE

Wrap-on fiberglass pipe insulation. 3" wide, 35 ft. long. *Std. pack: 12.* Alter 24218 or equal.
5640-022-2535.....EA \$1.50

Flexible braided asbestos insulation. Slip-on tubing or sleeve without attachments. For tubing or pipe, 1 1/2" o.d., 1 1/8" thick. Gray (part nos. indicated) or equal.

28" long. 7040-28.
5640-101-4809.....EA \$3.00

51" long. 7040-51.
5640-101-4810.....EA \$6.00

INSULATION, THERMAL

Self-bonded felt of interlocked fibers. 2000° F. max. temperature limitations. 15-ft. roll, 39" x 1/4" thick. 0.18 lbs. per sq. ft. *Std. pack: 1.* Hitco B-100-1 or equal.
5640-881-9300.....EA \$24.80

INSULATION BLANKET, THERMAL

For heater duct flex section. Fine fiber with 501 density, .002 foil. 20" long x 1/2" thick. *Std. pack: 12.* Bell Helicopter (part nos. shown) or equal.

9 1/2" wide. 204-072-321-7.
5640-932-5137.....EA \$1.78

17 1/2" wide. 204-072-321-5.
5640-932-5136.....EA \$1.78

Lightweight thermal felt insulation. Fiberglass cloth facing bonded to felt. One side is white, nonreflective, not quilted. Fire- and mildew-resistant, water repellent. 400° F. heat limit. No attaching flanges, strips, or tabs. 6 ft. x 50 ft., 1" thick. Type I, class 5, Spec. MIL-I-22023C.
5640-291-7451.....SF \$3.20

One layer of thermal insulation fiberglass felt. With resin binder. 0.246 at 60° F. max. thermal conductivity. .75 pound cu. ft. density. Affixed facing sheet of waterproofed building paper on one side only. Attaching flanges with two edges. 200 ft. continuous roll. 48" wide, 5/8 to 3/4" thick. Type I, class 2, Spec. MIL-I-22023C.
5640-267-1639.....SF 8¢

Lightweight, flexible fiberglass felt for thermal insulation. Fire resistant. For temperatures up to 1000° F. 0.230 max. thermal conductivity at 75° F. 3.0 lbs./cu. ft. density. 48" x 1" thick. 100 ft. roll. Type I, class 6, Spec. MIL-I-22023C as applicable.
5640-846-9711.....RO \$56.00

Quilted blanket. 2 x 6" diamond stitching. 50 square feet (3 ft. x 16.7 ft. roll). *Std. pack: 1.* Seaman B506 or equal.
5640-720-3833.....SF \$3.50

One layer ceramic fiber. Fire- and mildew-resistant. 0.50 b.t.u. at 600° F. max. thermal conductivity. 2000° F. max. temp. limitation. 312 x 42 x 1/2" thick. Johns-Manville or equal.
5640-712-0421.....EA \$65.22

Flexible blanket. Fiberglass—not-repellent, -resistant or -retardant. For use below ambient and above ambient to 450° F. Aluminum foil one side. 0.23 at 50° F. max. thermal conductivity. 4.25 density. 48 x 24 x 3" thick. Form B, type I, class 7, Fed. Spec. HH-I-558.

*Supersedes description in April 1969
GSA Stock Catalog, IL/Part I.*

5640-281-6918.....SH \$1.88

INSULATION BLOCK, THERMAL

Flame proofed fiberglass block. Non-water repellent. 0.23 max. thermal conductivity at 75° F. mean temperature. 36 x 24 x 1" thick. 2.8 lbs. cu. foot density. Type II, Spec. MIL-I-742C.
5640-809-6323.....EA \$1.20

Plastic pyrotex block. 1.188" x 0.563" x 0.096" thick. Edges butt jointed. 2 holes—approx. 0.209", centered and spaced approx. 0.817" apart. *Std. pack: 12 and 144.* General Tire and Rubber or equal.
5640-895-9122.....EA 42¢

Rigid flameproof mineral wool block. Resists temperatures up to 1500° F. Butt joint edges. *Std. pack: 6.* Form A, class 5, Fed. Spec. HH-I-558.
5640-267-6766.....36 x 12 x 3/4" EA 90¢

INSULATION BOARD, THERMAL

Tan, semigloss enameled, Micarta plastic insulation board. 3 x 1.70 x 0.63" thick. Two mounting holes, 1/4" dia., centered 2.60" apart. Used for electrical insulation.

*Supersedes description in April 1969
GSA Stock Catalog, IL/Part I.*

5640-849-3237.....EA \$15.50

INSULATION SLEEVING, THERMAL

Insulation for heated pipes and tubing in public buildings. One layer magnesia with mineral fiber. Cotton sheathing jacket . . . water permeable. Attaching band. 600° F. 36" long, 1" thick. For pipe size indicated. *Std. pack in italics.* Type II, Fed. Spec. HH-I-554.

5640-641-5323.....5" LF \$2.40

5640-641-5317.....4" 8 EA 49¢

Cork pipe insulation with fire-resistant vapor-barrier coating. Heavy duty thickness. 1/4" o.d. tubing. Used to insulate refrigerant and chilled water lines, 30° F. to 0° F. 36" long, 20 lengths to carton. Class 3, Fed. Spec. HH-I-557.

5640-267-1604.....EA \$1.95

Flexible metal mesh covered blankets for pipe and tube covering. Mineral fiber insulation, cotton jacket and metal bands. Temperature limit—370° F. 36" x 1" thick. Pipe size indicated below. *Std. pack in italics.* Type III, class 12, Fed. Spec. HH-I-558.

STANDARD PACK (QUP)

The Standard Pack or Quantity Unit Pack (QUP) cited in GSA supply publications is always expressed as a multiple of the Unit of Issue shown in the publications. Item descriptions may show one or more Standard Pack (QUP) levels; i.e., unit pack, intermediate pack, and shipping container pack. To reduce packaging and handling costs and to expedite shipment, ordering offices should requisition quantities equivalent to the shipping container pack, when possible, or to one of the other standard levels indicated.

CHANGES TO GSA STOCK CATALOG ITEMS

Changes to the April 1969 Stock Catalog, IL/Part I (FSG 12-64) are listed as follows: (1) Changes effective July 1, 1969 (previously listed in the July 1969 National Supplier Change Index); (2) changes effective October 1, 1969 (previously listed in the October 1969 National Supplier Change Index); and (3) new changes effective January 1, 1970, for both the April 1969 Stock Catalog, IL/Part I (FSG 12-64) and the October 1969 Stock Catalog IL/Part II (FSG 65-99). Fedstrip/Milstrip requisitions submitted to GSA should reflect these changes.

Page and column references are to the April 1969 Stock Catalog, IL/Part I, and to the October 1969 Stock Catalog, IL/Part II, unless otherwise noted.

ITEMS NO LONGER STOCKED IN GSA SUPPLY DEPOTS.—
Agencies having difficulty obtaining these items from other sources should contact the nearest GSA regional office for assistance.

NOTE to DoD: This information is for the guidance of civilian agencies only and is not intended to supersede information contained in current DoD Management Data Lists. Military activities should continue to ascertain item supply status from such Management Data Lists.

(1) EFFECTIVE JULY 1, 1969

Items No Longer Stocked in GSA Supply Depots Because of Inadequate Demand Unless Otherwise Noted

CHANGES TO GUIDE TO SOURCES OF SUPPLY AND SERVICE

SECTION 2—ALPHA INDEX

A new format has been devised for reporting changes to Section 2—Alpha Index, of the July 1969 Guide to Sources of Supply and Service. New or additional sources continue to be shown separately (*see below*) under New Items or New Sources. Deletions have been combined with such miscellaneous changes as source replacements, source changes and other needed corrections. This listing appears on page 55 under Miscellaneous Changes. Entries are first listed by commodities and then by Services. Each entry shows a GSA source of Supply, using the following symbols.

(1) **COM — COMMERCIAL.** A GSA-managed item authorized for local purchase from commercial sources as a regular method of support. GSA will furnish procurement support, provided the requisitioning activity (1) has been unable to procure the item locally; (2) is located in an isolated area and does not have local markets accessible to it; (3) does not have suitable procurement capability. Use advice Code 2A for items in this category.

(2) **FSS — FEDERAL SUPPLY SCHEDULE.** A schedule of contractors that will furnish commodities and services listed in the Federal Supply Schedule at a definite price for a given period of time. Generally, items shown are not carried in GSA stock. Orders should be placed direct with the contractor. Please observe monetary and quantity limitations stipulated in the schedule. FSS 65-IID listed as a source means that you should use Federal Supply Schedule 65, Part II, Section D.

(3) **NBP — NATIONAL BUYING PROGRAM.** Send your orders to nearest GSA regional office for procurement action by GSA for direct shipment to consignee.

(4) **NIIS — NEW ITEM INTRODUCTORY SCHEDULE.** A special Federal Supply Schedule used to introduce new or improved products into the Federal Supply System.

(5) **STK-I and STK-II — GSA STOCK CATALOG.** Items stocked in GSA supply depots for immediate issue. Stock items, usually are listed in the GSA Stock Catalog, except as noted in the next paragraph. Part I (STK-I), consists of FSG 12-64 and Part II (STK-II), FSG 65-99. See the index in current issue of Stock Catalog to guide you to the page where the item is described.

(6) **STK-ML — MANAGEMENT DATA LIST.** Stock items available for immediate issue. These are primarily Hand Tool items for Military support and other items not yet listed in any GSA Stock Catalog. These items are, however, listed in DoD and GSA Management Data Lists.

(7) **TC — TERM CONTRACT.** TC R-8 means term contract is administered by Region 8. Generally the contract is prepared to list supplies or services covering a specified area only. Ordering offices should consult Section 4 of this Change Index for information on geographic coverage. Purchase procedures are outlined in each term contract, and standard instructions for ordering are shown in the July 1969 Guide. Copies may be obtained from the GSA region servicing your agency.
