MEMORANDUM

From: P-3B
To: P-4R

Subj: USNS POPE (T-AP 110), industrial assistance for hull painting;
negative report

1. The USNS POPE was inspected upon arrival at Oakland 29 August 1966 to determine the condition of the exterior hull paint.
2. As a result of this inspection it was determined that the condition of the hull was good and no industrial assistance would be required at this time. Minor deficiencies can be corrected by the ship's force.

Very respectfully,

R. A. MOORE
