All MSTSPAC Ships

Subj: Slings cargo net category I defective material report

Following defective material reported by FM30 9313 MECH. Sling cargo nets constructed of nylon webbing, square or diamond mesh pattern - FSN No's: 3940-892-4372, size 10 X 10 feet; 3940-892-4373, size 12 X 12 feet; 3940-892-4374, size 14 X 14 feet.

Report indicates subject sling's welded corner links show gas voids and cracks in weld area and suspect possible failure with resultant personnel danger.

Examine and remove from use all subject slings evidencing above defect. Due to replacement costs substitution of 5/8 inch or larger size screw pin anchor type shackle with tack welded pin and 1.75 inch circumference nylon rope becket to replace defective links is authorized as a possible method of shipboard repair in lieu of replacement of slings.

If not feasible, report to COMSTSPAC quantity of defective slings on hand citing Case No. 8-1159-92 and indicate identifying info. Negative replies not required.
