Encl: (1) Command Safety Council Meeting; report of

1. The report of the Command Safety Council Meeting of 18 March 1969, enclosure (1), is approved and the recommendations are to be carried out. I am vitally concerned that personnel under our care have been injured needlessly and with the appalling waste of money due to preventable accidents. We have an inherent responsibility to provide for the safety of others affected by our decisions and actions to conserve public funds entrusted to our care. Aside from humanitarian considerations, the main objective of our safety program is to enhance our operational readiness by reducing to the minimum personnel losses and loss or damage of material due to accidental cause. I expect that each of you will be equally concerned for safety and contribute to the best of your ability to achieve accident free operation.

2. I commend and thank personnel of the following ships and shops that had no disabling work injuries in 1968 for their accident prevention efforts. Well Done!
