Repair C.R., F.B. rpte And RDF-Check problem there.

### TROUBLE FOUND & WORK PERFORMED

- 1) Course Recorder clock removed from vessel found shaft of intermediate gear broken off. Repaired and returned. Aligned pens and tested same.
- 2) Checked A.R.F. repeater motor. Found open coil. Notified M.S.T.S. Electronics Inspector of problem. At his request, removed motor to shop for repair. Returned to vessel. Re-assembled and tested.
- 3) Flying bridge rpte misperotype. Found cable open in 3 out of 5 leads. Replaced cable. Change lead to remove motor misperotype.
- 4) operation of all above normal.
