Sgt Robert A Goode, 56 FMS

IN TURN

1. On the recent ferry mission of twelve OV-10 aircraft from this base to Osan AB, Korea, special recognition must be given to the hard work and long hours put in by Sgt Robert A Goode, 56 FMSq.
2. Sgt Goode, along with those left PCS at Osan, was instrumental, and indeed, invaluable in the safe, successful accomplishment of the mission. Marred by weather and material difficulties, his days were often stretched well into the night. He spent many uncomfortable hours on the C-130 support aircraft, and then went right to work upon landing, preparing the OV-10s for the next day.
3. A special note of gratitude and appreciation is extended to Sgt Goode from the Commander and personnel of the 23 TASS, especially the pilots who flew the aircraft on this mission.
