FOREWORD

PURPOSE

- A. This publication is to be used as a local supplement to Civil or Military flight information publications. Airfield and site status is subject to change as a result of local operational conditions. The Flight Information Center - Vientiane will coordinate with all interested agencies maintaining current information on Laos facilities. This FIC will be contacted as the primary source and/or final Company authority whenever airfield or site status is in doubt.

- B. Adherence to instructions contained in the Air Facility Data Pamphlet, its Addenda and NOTAMs is mandatory for Air America flying and ground personnel concerned (see Air America Operators Manual - Southeast Asia; Section 4.70F).

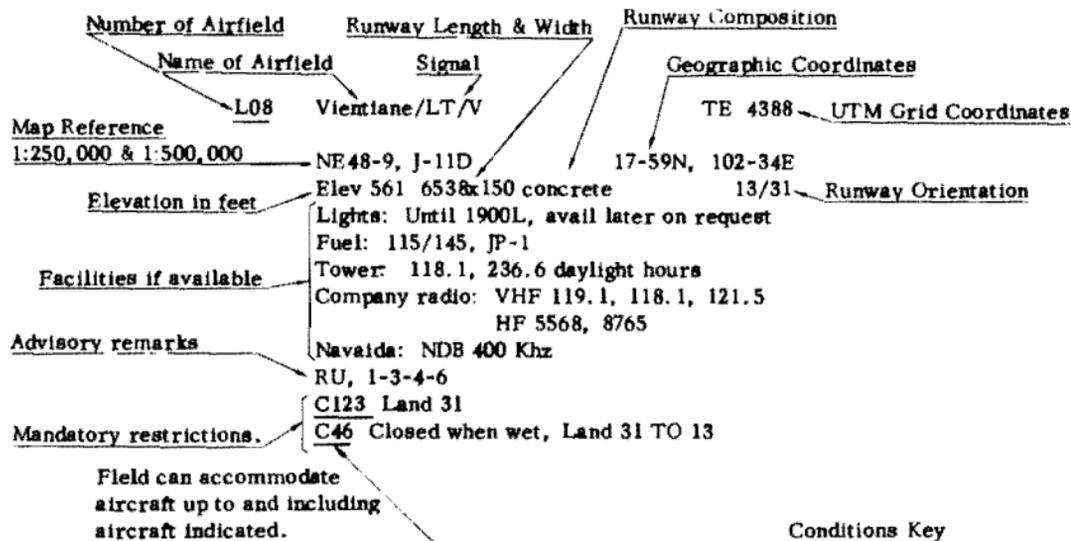

REVISIONS

Revised pages will be issued by FIC - VTE when necessary to update coverage. FIC - VTE will publish and distribute local Addenda or NOTAMs to all pamphlet holders for interim pen and ink correction pending publication and distribution of revised pages.

SUBMISSION OF INFORMATION

Company personnel or Customer and allied agencies should submit any pertinent or new information to the FIC at the Air America operating base in their respective area.

AIRFIELD DATA KEY

CLOSED UNF: Unfriendly

CLOSED UNF ACTIVITY: Site/Airfield under friendly control. May be used on trip by trip basis, as briefed.

CLOSED: Closed to all fixed wing aircraft

Gradient Key

L - Level
 M - Medium
 S - Steep
 U - Upslope
 R - Rolling

Conditions Key

1 - Slick when wet
 2 - Tricky approach winds
 3 - Normally rough surface
 4 - Restrict takeoff weight
 5 - Restrict landing weight
 6 - Bad in rainy season

DELTA AIRWAY

OFF DELTA AIRWAY ALL ROUTES

AIRWAY ALTITUDES

North - Odd
South - Even

Altimeters set 29.92 upon passing 6000 in climb. Airway extends from surface to 11500' PA. MEA 9000'

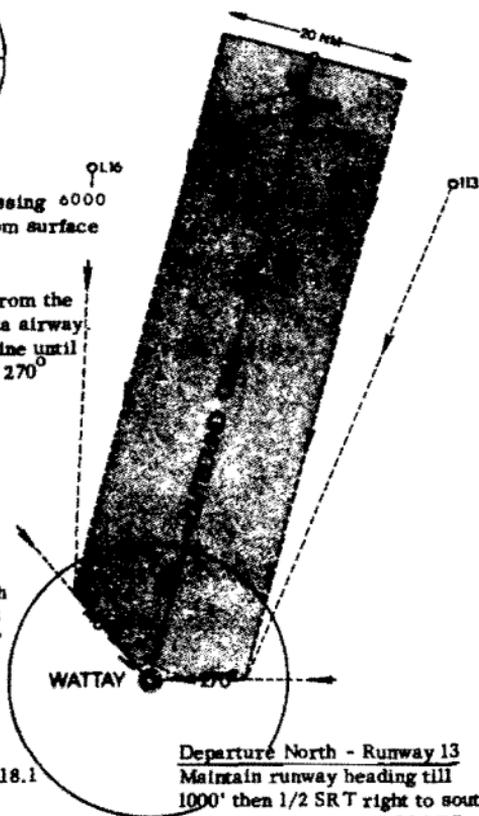

All Aircraft inbound to LOS from the north will avoid outbound Delta airway. Stay 10 nm away from centerline until bearing of 140° (A/C west) or 270° (A/C east) is received.

Departure North - Runway 31
Maintain runway heading till 800' then 1/2 SRT left to south continuing overhead LOS NDB below 3000' maintaining 3000' until 10 nm from station.

All Aircraft will guard VHF 118.1 within 15 nm of the airport.

When below 3000' MSL and 15 nm of LOS proceed directly to the airport.

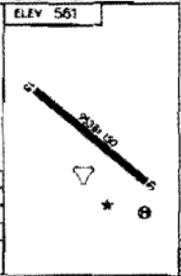

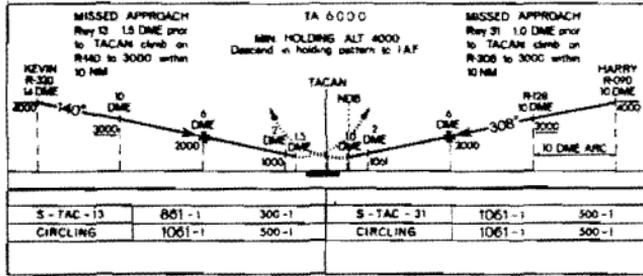

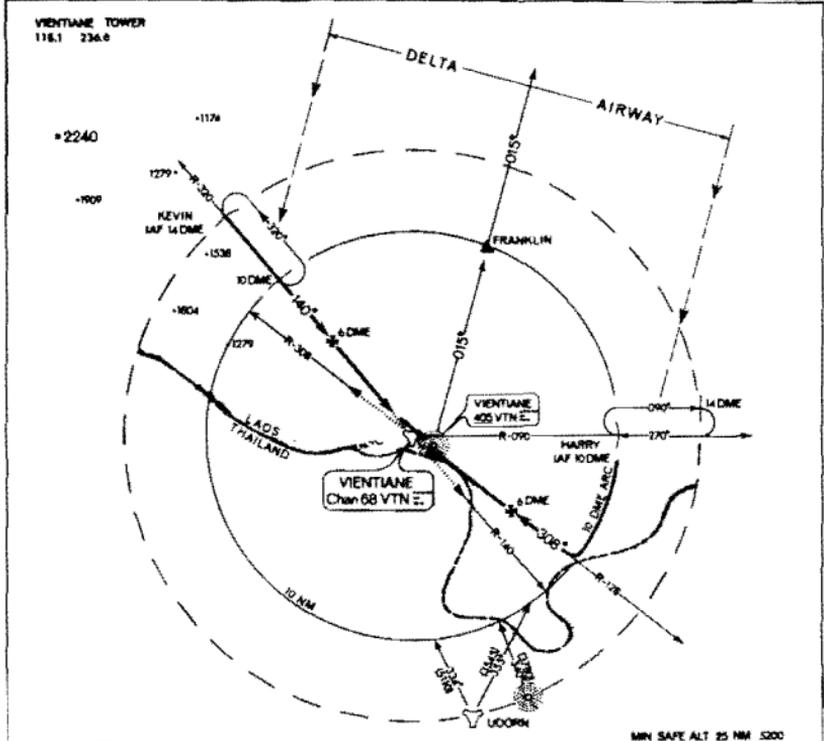

Departure North - Runway 13
Maintain runway heading till 1000' then 1/2 SRT right to south continuing overhead LOS NDB below 3000' maintaining 3000' until 10 nm from the station.
