MEANS FOR FILING STORIES

Teletypes

Both ITT Globe-MacKay and Philcom RCA have teletype facilities located in the east wing of the Silver Wing Recreation Center. They can send messages anywhere in the world (except the Philippines) and are open 24-hours a day.

News Agencies

Associated Press and United Press International have facilities set up in the upstairs of the east wing of the Silver Wing. They both have means to send both copy and photos.

AP will relay copy and pix to anywhere in the world through either New York or Tokyo.

UPI relays their material through Hong Kong.

Both agencies have made arrangements to use the photo processing facilities of the Base Hobby Shop.
