

DICTATORSHIP

"The Scientific concept 'dictatorship' means nothing more nor less than unrestricted power, absolutely unimpeded by laws or regulations and resting directly upon force. This is the meaning of the concept 'dictatorship' and nothing else".

Quoted from Lenin, "A Contribution to the History of the Question of Dictatorship (Oct. 20, 1920), Selected Works (1943 ed.) Vol. VII P. 254."
