Dear Mom + Dad:

Wow I can't believe this company first they cut people then they hold on to everyone now they fired 30 Philipinos what a bust. So far I still look like I still have a job and I've been off for 6 days boy is it a real bust.

I sent for Aunt Marge's gift and also sent for your candleabra, all of it will be going to you. There's also a new catalogue for the P.Z. as soon as I can I'll send one home.

I got a letter from Gary Hammond the other day, and he's married and going overseas to the Indian Ocean to build that new Naval base for the British and U.S. Naval forces. Also he said he would try to stay in touch and try to

get to Thailand for his R+R.

Also I heard from Rich about the man who checking up on me; at least it means someone cares and the more hope.

I have of keeping this job.

Rich also said he might be moving over to Virginia into a townhouse.

I haven't heard anything from Jim as yet have, you heard anything about him lately.

I'm getting a tan since I ~~go~~ to the pool everyday that I'm off so I ~~would~~ should have a good tan in a few more days.

See you soon

Love
Greg.
