

## CONSIDERATION FORM

To : **The Management of Program for persons who  
worked for American office**

Name : Van Thi Xoa

Year of birth : 1937

I did work for the American 's office from 1966 until 1973, then the American army had withdraw from Vietnam, so I was out of work. In 1975 our country liberated , my husband is old government's soldier and I myself worked for American government that is the reason why my family move to Song Be province to have new economic zone.

In 1984, I heard that the American government was opening the program for the persons who worked for the American office. Then my family submitted documents related to this program to have an interview. In 1992 my family had an interview. The officer asked us some questions as follows:

- Have your family really go to new economic zone ? My family did move to Song Be province to have an economic zone, but at that time did not take the confirmation form.
- My husband did not go to study in camp.
- My family does not have any relative to sponsor us to United State.
- My family's property were not grabbed.

Now, my family have the certificate confirming that my family moved to Song Be province to have new economic zone. At last, my family's cases does not re-consider to have another interview.

We look forward to receiving your favor and your soonest reply.

Thank you very much indeed.

Faithfully yours,

Van Thi Xoa
