GOALS

Here are your goals for Topic 1 of Chapter 5. Read them carefully. The goals list the things that you should be able to do when you finish work on the topic. You should be able to:

- List the advantages of paying by check.
- State the purpose of a signature card.
- Explain why check stubs are filled in before a check is prepared.
- Define banking terms.
- Prepare deposit slips, checks, and check stubs.

Exercise 1. Do Exercise 1 on page 80 of your textbook. Write your answers to Exercise 1 below.

Helping Hint: See page 75 of your textbook for the advantages of paying by check.

It is a safe, easy way to send money - and pay bills by mail.

It is safer to put money in a bank than to carry it in a wallet or keep it at home.

It is also a record of the amounts the depositor has spent.

It serves as a record for the depositor.

Exercise 2. Do Exercise 2 on page 80 of your textbook. Write your answer to Exercise 2 below.

Helping Hint: See pages 75 and 76 of your textbook for the purpose of a signature card.

People should sign their names on their signature cards in the same way they sign on the checks (checking accounts and saving accounts).

Exercise 3. Do Exercise 3 on page 80 of your textbook. Write your answer to Exercise 3 below.

Helping Hint: See page 78 of your textbook for the reason for filling in the check stub before preparing the check.

If a stub is not filled in, there is no record of the amount of the check or the payee's name.

Exercise 4. Do Exercise 4 on page 80 of your textbook. Write your answers to Exercise 4 below.

Helping Hint: See pages 75-78 and page 80 for review of the terms listed below.

- a. Payee the person or business to whom a check is made out
- b. Drawer person or business who writes the check
- c. Check a depositor's written order to the bank to pay out an amount from the depositor's account.
- d. Balance money a depositor has in the bank
- e. "NSF" Not sufficient funds.
- f. Overdrawn account Account with too little money to pay a check that the depositor has written.
- g. Depositor person who puts money in the bank
- h. Deposit slip form listing the amount of money that a depositor is putting into the bank

Exercise 5. Do Exercise 5 on pages 80 and 81 of your textbook. Write the answers to Exercise 5 on the forms below and on the next page.

Helping Hint: Refer to the deposit slip on the top of page 77 of your textbook as a guide.

Check Your Work: Did you arrive at a final balance of \$298.52? If not, re-check your computations. Try to find your error or errors.

LEARNING THROUGH PRACTICE

1. Start with 50 and subtract in order the following numbers. For example:
50 - 10 = 40, 40 - 7 = 33, and so on. If you do your work correctly, you will get 12 when you add the remainders of the five problems.

- 50 - 10 - 7 - 8 - 5 - 6 - 4 - 9 - 1 = 2
 - 50 - 6 - 3 - 6 - 4 - 9 - 8 - 5 - 8 = 1
 - 50 - 2 - 6 - 3 - 9 - 4 - 7 - 6 - 9 = 4
 - 50 - 6 - 9 - 4 - 2 - 5 - 7 - 6 - 8 = 3
 - 50 - 8 - 6 - 2 - 8 - 5 - 4 - 9 - 4 = 11
- Total 12
