

# FIRE FROM THE SKY

## SEAWOLF GUNSHIPS IN THE MEKONG DELTA

by Richard Knott

*Fire From The Sky* brings the Seawolf experience up close and personal. Gleaned from official and historical documents and the colorful recollections of more than fifty Seawolf warriors, this dramatic account takes the reader from concept to the moment the last squadron commanding officer turns out the lights. Some sixty photographs and drawings, many never before published, illustrate this landmark work.

**Richard Knott** retired from the U.S. Navy in 1986 after a thirty-year career and several thousand pilot hours in a variety of aircraft. He is a former editor of *Naval Aviation News* and *The Naval Aviation Guide* and author of *The American Flying Boat* and *Black Cat Raiders of World War II*.
