Mr. Don C. Thomson

Historian-Seawolfs

Mr. Tom Grubbs

Dear Tom,

I was able to locate one of the Seawolfs you mentioned in your letter of 1/18/83.

Jim Thompson

I talked with Jim on the phone tonight and told him about the Seawolf Assn. and that he would start getting Wolfgrams. I also mentioned that I had gotten his name from you and he asked if you still lived in the South and I replied in the affirmative. I told him he would also receive our master list in due time with all the names and addresses we have.

I discovered that Robert S. Urneals is still living in San Antonio but has an unlisted phone number so I will have to obtain his address through other means.

Thanks for your help in tracking down another lost Wolf:

Sincerely,

Don Thomson
