Don C. Thomson

Mr. Peter Mersky

Dear Peter,

I have enclosed a complete inventory of the items contained in the historical files of the HA(L)-3 Seawolf Association. I'm sorry that it has taken me eight weeks to get this to you but I was out of town for four weeks and am just now getting ready to leave for three more weeks.

I contacted our President eight weeks ago and asked him to add you to our Association Muster list so you should have gotten the latest Wolfgram and information on our up-coming reunion in San Diego. I am still concerned about you attending that reunion. Please be sure to let me know if you anticipate any problems in getting to that event. I have staked my reputation on your being there. Also let me know if finances are any problem and we will work out some kind of arrangement with the Association to front you the money for the airline tickets. As long as you are planning to attend I would say that all is on track. It is very important for the person telling the Seawolf story to be at this entire weekend reunion to really get to know "The Seawolves" and visa-versa.

Please take the second copy of the inventory attached and mark the items you wish me to copy and send to you, and return that copy of the inventory to me. I will then begin copying these items to forward on to you.

Best Regards,

Don C. Thomson
