

Oct. 24, 1991

Hi, Don!

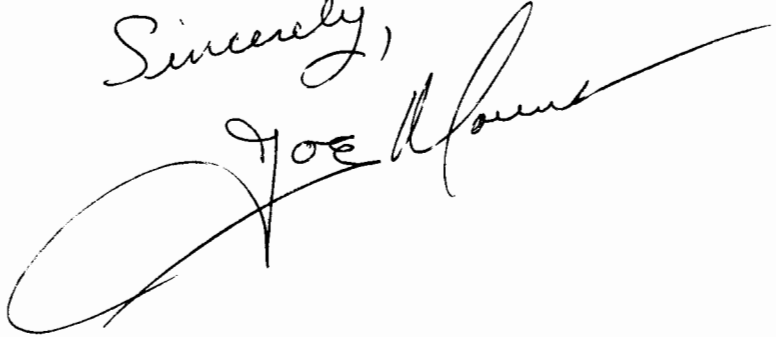

Well, miracle of miracles I've finally got my priorities sorted out and thought that I'd better get these pictures off, to you. I hope I'm not late.

What with having about of pneumonia, my wife having a hand operated on and various other distractions, it has been rather a discombobulated time.

I have annotated on the back of the photos and the front of the slides what the subject(s) is/are. I hope these will be of some value to your effort on behalf of the "Seawolves".

I was talking to George Le Duc the other night and we are both in the dark as to what happened at the reunion and where to send our dues or, if we still have a "Seawolf" Association anymore. Have you heard any word on just what is going on?

Well, I want to get this out
in the morning mail so I'll close
for now. With good wishes to you
and yours.

Sincerely,
Joe Alford

P. S. FLY NAVY!!
