Don C. Thomson

Mr. Chuck Bagley

Dear Chuck,

Enclosed is some legal paper and a self addressed return envelope for your convenience. I would appreciate it if you would put down whatever you can recall about the evening of 7/13/68 when Abrams, Romanski, Robb, and Hobbe were shot down and killed on Cu Lao Dung Island on the lower Bassac. I am trying to compile eye witness descriptions for our KIA's both for our historical records and for the benefit of next of kin and relatives. I would appreciate your making it as complete as you can. I know it's been a long time since that day but just do the best that you can.

We have one Bill Soto on our current membership roster living in California. On the assumption that this is the Octavio Soto you mentioned in your letter, I have written him also also asking for his recollections.

See you in Pensacola in June,

Don Thomson
