Dear Bill,

I received a letter recently from Chuck Bagley who is
one of our members in the Seawolf Association. He mentioned
that one Octavio Soto, "Buddy" Record, Lyle Nimmo were with
him in the wing ship the evening of 7/13/68 when Abrams,
Romanski, Robinson and Wobbe were shot down and killed on
Cu Lao Dung island on the lower Bassac. Are you the same
"Octavio" Soto? If so I would like for you to right down
all that you can recall about those events. This is very
important as I am putting together eye witness descriptions
for our KIA's for our historical records and for relatives
and next of kin.

I am enclosing legal paper and a self addressed return
envelope for your reply. Time is of the essence as the reunion
will be coming up in June and many of the families of our
KIA's will be attending the reunion. We want to have our
eye witness accounts to our KIA's put together before that
time.

Thanking you in advance for your cooperation in this
matter. See you in Pensacola.
