Alan Mark McGregor

Dear Alan,

In reference to your letter of Nov. 23rd. to Tom Thalmann.

First HAL-3 did have a number of individuals, such as Dick Reardon, who, for several years were listed as MIA's. But, to the best of my knowledge, they were all changed to KIA's by the Defense Department some years back. I am enclosing a copy of our new KIA list which I have just spent the last several weeks putting together. It doesn't have any additional names, as the previous list was complete, but it does have, cause of death, home town and other important and heretofore unknown information.

I appologize for this sloppy letter but I'm in a desperate hurry as I have to pack and leave town within the next hour. I'm sure that you understand.

Sincerely,

Don C. Thomson
