

April 20, 1989

Dear Tom,

Here are some more found Wolves. I may have already given you some of these by phone.

John C. Connolly

Roger W. Ek

Brian McHassie

Here are some phone numbers that I looked up for some of our current members.

Al Banford.....
Reynolds Beckwith.....
John Bolton.....
Walter Frazier.....
Frank Gazarek.....
Wayne Knutz.....
Carl Nelson.....
Ron Young.....

Why don't we assign someone to sit down with an area code map, so that they can phone information in the appropriate area codes and look up the numbers for all of the members on our roster for which we have no phone number. One of the great things about our roster is that our new found members can locate the phone numbers of former Seawolf buddies they haven't heard from in twenty years and give them a surprise call. So why not fill in all the phone number gaps on our roster?

This brings to mind the thought that at the Friday night get-to-gether on June 9th we need to have a posterboard sign that says something like "All Seawolves Please Check and Update Your Info. On Our Roster Here" and have a current roster there for them to update. They can use it to fill in missing info like year, Det., phone number, etc.

Were you able to get anything going on the Seawolf pins for barrets and on large Seawolf patches like the one Al Ross sent you? I'm going to call Con Jaburg in a few minutes to see if he got the Riverene books from Squadron-Signal Publications.

LATER,
