William J. Mulcahy
President,
Seawolf Association

CW4 Don C. Thomson
Historian/Curator
Seawolf Association

Dear Don,

I have made several attempts to contact you at home and left messages on your answering machine. I know you have a busy schedule and are frequently gone. I therefore find myself having to resort to writing you this letter. The time is rapidly approaching for me to get the next issue of the Wolfgram to the printers. I am shooting for the first week in December. I had hoped to get an article from you concerning an update on the status of the declassification of Seawolf records or any other topic you might consider appropriate.

Coincidentally, I just received a letter from Otto Gercken a few days ago. He said that he recently played golf at Andrews AFB with retired Chief James Lee, who is associated with the Naval Historical Foundation. He had never heard of the Seawolves and indicated they were looking for any kind of material from Vietnam. Chief Yeoman James W. Lee USN (Ret.) sent Otto the enclosure which I am forwarding to you. Otto indicated that maybe you would like to follow up on this with Chief Lee. *CURATOR*
Jim

Warmest regards,

Bill
