2. Justifying comments attached.

Very Respectfully,

  
C.E. SISK

Petty Officer GALLAHER is presently assigned to the 100 hour Check Crew of the Weapons Branch with the responsibility of performing organizational maintenance on all armament equipment. Petty Officer CALLAHER's outstanding knowledge of the aircraft armament systems makes him a valuable asset in maintaining the high state of armament system readiness. He quickly and professionally responds to all assignments, completing them in an expeditious and quality manner. He displays a loyal devotion to duty seldom seen among the lower rates. He will never leave a job incomplete even if it requires him to put in extra hours after his shift has secured. Prior to his assignment to the 100 hour Check Crew he was assigned as Night Check Armory Petty Officer, a job requiring the utmost in attention to detail. In this assignment he was always willing to help everyone and courteously took care of the many demands of both officer and enlisted personnel. Petty Officer GALLAHER is well thought of by everyone and because of his adaptability he can fit into any situation or group. He is highly recommended for Sailor of the Month and the Armament Branch takes great pride in nominating Petty Officer GALLAHER for this honor.
