Auionics Sailor of The Month Nominee:

ATTN G. D. Willson, D109806

Airman Willson has just recently joined H41-3 but has already proven his worth as a Line Troubleshooter. He continually strives to better his knowledge of the aircraft to the extent that he put in many overtime hours seeing through to completion a particularly rough gripe. Once learned, he forgets very few symptoms and their corrective actions. He has impressed his supervisors by his "Can-Do" attitude, excellent reliability and impeccable military appearance. His personal bearing is an inspiration to others, and one many strive to copy, thus elevating the total branch appearance and performance. Airman Willson was selected by his peer to be an excellent candidate for sailor of the month.

Weapons Sator of the Month Nominee

A03 E. M. McCarthy, B555167

Petty Officer McCarthy has been aboard for three months. During this period he has learned and mastered the complete armament systems in the squadrons aircraft. He is often called upon to solve some of the most difficult problems and gripes on the aircraft, this he does cheerfully and with enviable expertise. He demonstrates positive leadership in the handling of his assigned crew. They all pull together under his expert guidance and bring any task, no matter how difficult to successful completion. Much of his spare time is spent teaching others the complex systems of his rating. This he does with patience and understanding, willing to go to any length to insure the systems are fully understood. He has a cheerful nature, even disposition and a mild temper. His friendship and companionship is eagerly sought by many people within the squadron. He has the respect of his contemporaries as well as his seniors and is highly deserving for selection as Sator of the month.
