2. (C) Jolly Green 28 was launched at 2100Z from Da Nang AB, RVN, followed closely by Jolly Greens 03 and 30. The mission was a recovery attempt on Ozark Lead. Normal navigation led the flight to the Tango ARCP at 2315Z where all three Jolly Greens accomplished air refueling without problems. Jolly Greens 28 and 03 proceeded to an onstation position of 20° 30'N, 107° 10'W, arriving there at the briefed time of 0015Z. Jolly Green 30 held at 20°N, 107°W. At 0020Z, Jolly Greens 28 and 03 began moving northwest to a point 21° 05'N, 107° 40'W which was the point briefed by intelligence as offering the best ingress penetration point. JG 28 held at this point at 6,500 feet in company with three Locket aircraft (USN A-1H). Locket 01 penetrated the coast and arrived over the suspected position at 0110Z and began a visual and electronic search. Locket 01 heard a beeper and made voice contact with someone that used the callsign of "Zark", and who kept repeating "I'm alive. I'm alive; come rescue me". The ground party failed to respond to any questions asked by Locket 01. Locket 01 considered it to be a trap and terminated the SAR effort after concurrence with all participating SAR forces. All effort was terminated at 0200Z and Jolly Greens 28 and 03, who had remained over the water the entire time, were RTB'd to Da Nang. Jolly Greens 28 and 03 proceeded to Willow and received "Hi Drinks". Jolly Green 30 was directed to orbit point Whiskey and was RTB'd to Dong Ha RVN at the termination of this orbit.
