Mr. Dolf Droge
The White House
Washington, D.C.

Dear Dolf:

First of all, let me say what a pleasure it was to make your acquaintance during your recent trip to Southern California. My sentiments are echoed by many of the people whom you met at our three parties, in particular Richard Zanuck, Frank Price, and Gary and Mary Ann Collins.

Professionally speaking, I can't help but think that what you accomplished (or at least begun) has been of immense value to us all. Certainly it has clarified one point: that the Vietnam situation is much more complicated -- less cut and dried -- than any of us who see it only from our "American Foreign policy standpoint" could have ever imagined.

Now on to the business of translating a better understanding of Vietnam into "confirmed" Celebrities for President Nixon. We certainly promise to follow through with the ball that you have started rolling.

Again, with much appreciation and best regards, I am,

Sincerely,

EDWARD S. CRANE
Executive Director

P.S. Come back and see us again soon!
