MEDICAL AIR EVACUATION

1. In the event of extreme emergencies where time and the nature of the sickness or injury does not permit following normal procedures, air evacuation may be obtained in the following manner.

a. Call one of the below (starting with the primary) and use the call sign of "Livesaver"

	<u>CALLSIGN</u>	<u>FREQ(MHz)</u>
Primary (Avn Bn Comm Net)	R92N	40.6
Secondary (Div Gen Pur Net)	R92N	44.7
Alternate (Div Comm Net)	R92N	38.4
Alternate (Famous Rn Net)	Range Control	41.8

b. Once you have established contact, give the following information to the dispatcher.

- (1) Location of injured person(s), (6 digit coordinates)
- (2) Type/description of injury (to include amount of bleeding, if applicable)
- (3) Location of injury (stomach, arm, leg, etc)
- (4) Blood type of injured person (if available)
- (5) Heli-pad or landing area to be used by Med-Evac aircraft (6 digit coordinates)
- (6) Navigational aids to be used by ground personnel (smoke, panels, lights)
- (7) Best direction for landing and takeoff of aircraft, (N to S, SE to NW, etc)
- (8) Radio frequency and call sign of personnel on ground.

c. The distress call may be received directly by the 38th Aviation Battalion dispatcher on 24 hour duty, or it may be picked up and relayed by other receiving stations or airborne aircraft.

d. In such emergencies, the 38th Aviation Battalion Med-Evac dispatcher will be responsible for alerting the 113th Medical Battalion, who in turn will arrange for receipt of casualties at the Post Medical Facility or other receiving stations that may be pre-designated.

e. SPECIAL CONSIDERATION. The unit requesting air evacuation service will be prepared to send an aidman with the casualty to assist the aircrew and continue medical treatment.
