## SILENT BIRDMEN

A dramatic story of a twenty year old helicopter pilot caught up in the combat and camaraderie of Vietnam. Fly with him on the counterinsurgent missions of Project Delta, the combat assaults, the twilight insertions, and the hot extractions. Experience the confusion of Tet and the nightmare of the Crater.

"As time passes, names, places, and faces are forgotten. But anyone who has experienced the confusion of battle can recall the horrors with detail. The mind plays back those scenes in slow motion. You dream and daydream with remarkable clarity. Time deadens the shock that the body endures; but despite twenty years of time, the mind does not permit you to forget."
