IV. PRCPAGANDA CONFERENCE TARGETS PACIFICATION
AND VIETNAMIZATION

(Liberation Radio, clandestine, in Vietnamese to South Viet-Nam
1000 GMT, 7 September 1970)

On 23 August, the Propaganda Subcommittee of the South Vietnamese Information, Culture, and Education Committee and the Information and Culture Department of the Information and Culture Ministry -- the two organs which have been in charge of making propaganda to motivate the campaign to set examples of good men and good deeds-- held a conference to re-capitulate propaganda achievements in motivating the campaign and to set forth concrete tasks in order to strongly step up the movement to respond to the emulation drive launched by the RSVN PRG to celebrate the two great anniversaries, 19 August and 2 September, and to show deep gratitude to President Ho on his death anniversary, 3 September.

The conference was very enthusiastic over the initial results of the propaganda. The conference pointed out that at present all sectors and circles throughout the South have actively participated in the emulation drive and have used appropriate forms of activities to broaden the movement. A number of sectors, organizations, and units have been thoroughly aware of the importance of the movement in implementing the determination to study and complying with President Ho's testament.

After having drawn experiences and pointed out strongpoints and weakpoints in the past period, the conference set forth a number of tasks to be fulfilled in the future in order to strongly step up the movement to set examples of good men and deeds having these contents: to be grateful to President Ho; to emulatively and patriotically oppose the Americans; everyone achieves good deeds and every sector has good men, in order to fulfill our immediate tasks which are to defeat the enemy's special pacification program and Vietnamization-of-the-war plan and to advance toward gaining greater successes.

The conference decided to launch a propaganda drive on the occasion of the two great national anniversaries and of President Ho's death anniversary in order to contribute to strongly stepping up the anti-U.S. patriotic emulation movement and to implementing the entire armed forces and people's determination to comply with President Ho's testament.
