

This is to certify that I

G.G. McElroy, professor emeritus of chemistry at the AAAS senior high school, concur with one C.P. Rogers and one G.G. Gull (odd name!) on the identification of mercurous chloride as the unknown ion in the test tube.

Let it be known that I will do my best to trick and deceive them on the next sample.

James Finley Daugherty III 28 March 1974
Witnessed by ESE date
my able bodied lab ass.

G. G. McElroy
Professor

Certificate of Scientific genius

Chastity Pureheart Rogers

and

Great Galloping Guff

have ~~correctly~~ ~~identified~~

Magnificent ~~Muscoron~~

Claude

on this day of

March the 28 day
there of IN the year

1974 at 10:50

on a beautiful Thursday
morning.
