SUBJ: Resolution Adopted by VC Western Sơn Tinh District Party Committee, Quảng Ngãi Province, VC Region 5. (U)

(U) (11 pages, typewritten; B-3) Resolution, dated 5 Aug 70, classified ((VC)) Secret, with the signature block of Bùi A' for V52 District Party Committee ((possibly VC Western Sơn Tinh District Party Committee, Quảng Ngãi Province, VC Region 5)), outlines activities to be conducted by the district from Aug 70 to the spring of 1971.

The document begins with an assessment of the general situation in ((Quảng Ngãi)) Province during the first half of 1970, especially during ((Campaign)) 180. Documents state that though the enemy was being defeated on all fronts in Indochina, he continued to cause difficulties to friendly ((VC)) forces by intensifying rural pacification activities in vital areas such as ((VC)) Southern Bình Sơn and ((VC)) Western Sơn Tinh Districts. The district local force units were short of personnel and were unable to resist the enemy's rural pacification efforts. Local guerrilla warfare movements have made little progress, and political struggles were ineffective. Only 60% of the purchasing criteria was satisfied. The majority of friendly personnel would rather rest than fight.

The resolution states that from Aug 70 to the spring of 1971, the district was to concentrate on destroying the enemy's rural pacification program and the Vietnamization plan as directed by Resolution 10 ((possibly adopted by the VC Region 5 Party Committee)). The district was to: (1) Convert weak hamlets, such as Khánh Vân, Phú Thọ, and Hà Nhai; (2) regain control of the population in Đa Ngăn, Ngân Giang, and Thọ Lộc Hamlets; (3) undermine RVN resettlement centers at Gò Thi, Đa Đê, and the Núi Tròn Mountain and return the residents to their native hamlets; (4) kill 350 enemy soldiers and 140 tyrants ((GVN local officials)); (5) expand agent networks in enemy controlled areas; (6) consolidate organizations in liberated areas and develop Four-Good-Quality Party and Youth Group chapters; and (7) develop guerrilla warfare movements, and increase agricultural production and collection and purchasing activities.
