SUBJ: Plan for Sending Teenagers and Wounded and Sick Cadre to NVN,
VC Quang Nam Province Party Committee, VC Region 5, (U)

(C-Dec 70) (2 pages, photocopy; B-3) Circular, dated Sep 70, signed by Thanh Hà for BV.122, addressed to various agencies and district and city ((Party Committees)), criticizes the addressees for not following regulations concerning the selection and evacuation of ((VC/NVA)) patients and teenagers to NVN, and states that the addressees were to compile personal history and health status reports on aged, wounded, or sick cadre who were recommended for evacuation to NVN for treatment. The selection of wounded or sick personnel is to be based on their diseases, political background, and revolutionary ethics. Doctors and medical technicians were reminded to inform the patients' parent units or agencies of their health status so that these units can submit reports to BV.122. The criteria for selection and the number of patients and teenagers who were to be sent to NVN was outlined by BV.122 in a circular which was previously forwarded to the addressees. Document also emphasizes that the personal history and health status reports were to be submitted to BV.122 before 10 Oct 70.
