SUBJ: Activity Plan, Binh Dinh Province Unit, VC Military Region 5. (U)

(C-Feb 71) (6 pages, handwritten and typewritten; B-3) Activity plan, dated 10 Aug 70, signed by Nguyen Tien Loi for T30 ((possibly Political Section, Binh Dinh Province Unit, VC Military Region 5)), pertains to missions of subordinate elements to break the enemy ((FWMAF/RVNAF)) control.

To kill tyrants, break the enemy control, and seize power, elements subordinate ((to Binh Dinh Province Unit)) were to successfully perform the missions prescribed for the three phases ((possibly of the 1970 Fall campaign)).

During the first phase, cadre and Party members ((of units and agencies of Binh Dinh Province Unit)) were to conduct political indoctrination courses to make the personnel in every unit thoroughly understand the strategic importance of the elimination of tyrants, breaking the enemy control, and seizing political power. Propaganda activities were to be intensified to strengthen friendly organizations. Three-pronged attacks were to be increased. Preparations were to be made by covert and overt units and agencies to formulate an effective plan of operations for the second phase.

During the second phase, units were to conduct deep thrusts into enemy-controlled areas, killing informants, spies, and ((RVN)) administrative personnel. In conjunction, mass uprisings were to be promoted to destroy the enemy administrative machinery. Military proselyting activities were to be conducted to persuade the enemy troops to desert. To support the political struggles, local and guerrilla units were to coordinate with each other in fierce and violent attacks on the enemy.

The missions in the third phase consisted of strengthening friendly units and organizations. The local people were to be indoctrinated and revolutionary organizations were to be established. Young men and women were to be motivated to enlist in ((VC/NVA)) units. In addition, the establishment of defensive networks to counter possible enemy attacks was to be emphasized.
